

The NMLRA, HCH, JHS & PFBPS present...

Gunmakers Fair at Kempton

at the Kempton Community Center, Kempton PA

July 26, 27 & 28, 2024

"Our mission is to preserve and present the art and industry of making early American muzzleloading firearms and accouterments. Bringing together artisans and crafts people that help create and support the gunmaking industry. Promote muzzleloading by giving seminars on topics such as gunmaking, horn making, bag making, gun collecting, match competition, hunting, historical re-enactments, and other educational based programs."

Your valuable support and partnership will help us continue the tradition of bringing together gunmakers, artisans and like-minded people to a venue where they can all share in the preservation of the muzzleloading rifle history and culture.
